

RAVPower FileHub RP-WD03
Firmware Updating Guide

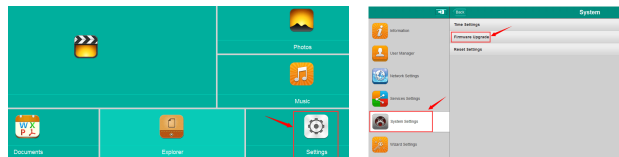

Note: due to iOS restriction, the firmware upgrade can only be done via computer (Windows/Mac) and Android Devices (tablet/smartphone).

What you need:

- RAVPower FileHub
- Internet Connection (for download firmware file)
- Any USB flash drive / HDD
- Computer / Android device

Steps:

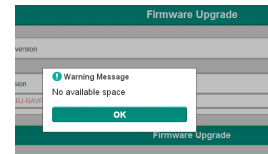

1. Please download the firmware file from <http://www.ravpower.com/downloads-RP-WD03.html> and save it to your computer or Android device local disk
2. Unzip the firmware file
3. Connect your computer or Android device to the RAVPower FileHub
4. Open any web browser and enter "10.10.10.254" in the URL field and press "Enter" or "Go"
5. When prompt for Username and Password, please enter your username or password. Default username is "admin" and no password
6. Insert USB storage to the FileHub
7. Go to: "Settings" > "System Settings" > "Firmware Update"

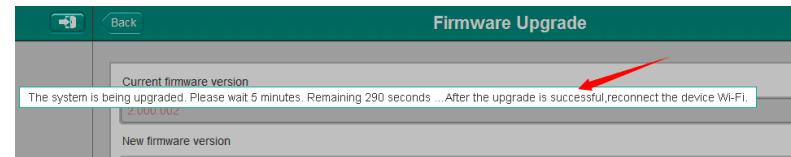

8. Locate the unzipped firmware file and click "Firmware Update"

9. If the following warning message shows, please check the USB storage connection; unplug and plug it in again.

10. Once firmware update is successful, the following message will appear. Please wait 5 minutes and the FileHub will automatically reboot.
